CSS

Zoetis Client Supply Services (CSS) is a specialized marketing and sales organization, handling the worldwide supply of contract manufactured products through the Zoetis Global Manufacturing and Supply network, to third party Human and Animal Health customers

CSS builds its strength on the Zoetis Site Network and broad portfolio of technologies, capabilities and successful history of quality, excellence and continuous improvement, to provide its customers ideal and cost effective supply solutions

Specializing in manufacturing of API/ABI's, bio and pharma injectables, CSS is able to support customers across a highly diversified, yet specialized, product portfolio

Moxidectin Supply

Originator of Moxidectin Active Pharmaceutical Ingredient, with 10+ years of manufacturing experience

World leading supplier of Moxidectin (USP/EP) for Zoetis and 3rd party customers

Manufacturing by an FDA & EU GMP approved site

Manage all aspects of the supply chain in-house, from order reception & raw material sourcing to final release and shipment of product

Proven track record for reliable product supply with exceptional quality & timely deliveries

Moxidectin Production

F-ALPHA FERMENTATION

QUALITY CONTROL TESTING AND RELEASE

Our manufacturing facility is located in Italy.
Moxidectin is manufactured through a combination of fermentation and chemical synthesis steps.
The entire manufacturing process is managed by highly trained and skillful Zoetis

Quality control samples are withdrawn during and at the end of the production process and tested in the in-house laboratory.

zoetis
